Federal Communications Commission
Office of Secretary

May 16, 2003

The Honorable Michael Powell,
Chairman Senate Commerce Committee

Dear Chairman Powell,

Please extend the deadline for the decision to relax ownership rules by the FCC. The relaxation would do irreparable harm to the diversity of information received by the public. The big companies are already too big and have a vested interest in this issue. The public need a chance to comment and have their feelings known on this matter. Too much power in too few hands is dangerous to democracy.

"Power corrupts, absolute power corrupts absolutely".

Thank you for your attention to this very important matter.
